## II. ASSIGNMENT

1. Assignor does and will sell, assign, and transfer to Assignee, the Assignor's entire right, title, and interest in and to each of the Patents, including, without limitation, the right to file foreign applications directly in the name of the Assignee and to claim for any such foreign applications any priority rights to which such applications are entitled under international conventions, treaties, or otherwise.

In the event that Assignee is unable for any reason to secure the Assignor's signature to any document that may be necessary or desirable for obtaining, sustaining, reissuing or enforcing each of the Invention Patents in the United States and throughout the world, the Assignor hereby irrevocably designates and appoints Assignee and Assignee's duly authorized officers and agents as the Assignor's agents and attorneys-in-fact to act for and on the Assignor's behalf and instead of the Assignor to execute such document, all with the same legal force and effect as if executed by the Assignor.

3. Assignor represents and warrants that it has not granted and will not grant to others (i) any rights, title or interest in and to any of the Patents, or (ii) any rights inconsistent with the rights granted herein.

IN WITNESS WHEREOF, Assignor has executed this Assignment effective as of the date first set forth above.
